🎓 Education

Bachelor in Information, National College Of Computer Studies, Kathmandu

January 2013 — January 2017

Completed a multidisciplinary program that combined **Information Technology** and **Management studies**, providing a strong foundation in software development, business processes, and organizational behavior. Gained practical experience in various programming languages, system analysis, and project management, while also developing a disciplined and professional approach to learning and collaboration.

Masters (MA Economics), Ratna Rajya Laxmi Campus, Kathmandu

March 2021 — October 2024

2021 – 2023

Focused on analytical and data-driven approaches to economic theory and policy. Developed strong skills in research, statistical analysis, and critical thinking, which complement my technical background in software development.

★ Project Highlight

E-Commerce Application (<https://www.holytunecraft.com>), Kathmandu

February 2025 — April 2025

Built a modern eCommerce platform featuring dynamic product listings, shopping cart management, and an intuitive admin dashboard. Utilized **Laravel with Inertia.js and Vite** to create a seamless single-page application experience with fast asset loading and real-time interaction. Implemented **secure authentication**, form validation, and efficient backend logic using Laravel. Integrated **payment gateways** including PayPal and debit/credit card options for secure and flexible transactions.

Program & Planing Management System, Daily Standup Management System, Tax Collection System, Inventory Management System For Local Governement, kathmandu

2020 — 2024

Maintained and enhanced an existing system that collects client information, performs full CRUD operations, and generates comprehensive reports. Developed features to highlight key activities and outcomes at the end of each fiscal year, supporting data-driven decision-making and performance tracking.

Travel Agency Website (<https://www.himalayanomad.com>), kathmandu

2022 — March 2022

Designed and developed a dynamic travel agency platform featuring tour packages, travel guides, and detailed itineraries. Integrated a custom-built Content Management System (CMS) to allow admin-level control over packages, destinations, and user inquiries.
