

Achyut Neupane

Software Developer, Software Support Engineer
(<https://www.achutneupane.com.np>)

Profile

Detail-oriented and passionate Full Stack Developer with over 4 years of hands-on experience in designing, developing, and maintaining scalable web applications. Proficient in PHP (Laravel, CodeIgniter, Core PHP), with a solid grasp of frontend technologies including HTML, CSS, Bootstrap, React.js, and Vue.js. Adept at working with both relational (MySQL) and non-relational (MongoDB) databases. Experienced in building modern SPAs using Vite and Inertia.js for fast, seamless development. Strong understanding of Linux environments and server-side scripting.

Employment History

Web Developer at Thamel IT Solution, Kathmandu, Nepal

Dec 2024

- At **Thamel IT Solution**, I work on developing **eCommerce projects and custom websites** using **Node.js, React, Vue.js, and WordPress**. My responsibilities include building **responsive front-end interfaces**, integrating **REST APIs**, and contributing to **back-end logic and database management** for full-stack projects.
- I also handle **WordPress website development**, including **theme customization, plugin configuration, and WooCommerce setups**, ensuring websites are **optimized, secure, and SEO-friendly**. Collaborating with the team, I contribute to projects from **initial setup to deployment**.

Software Developer at Business Management Services, Kathmandu

Sept 2019 — Nov 2024

- Developed and implemented high-quality software solutions for a diverse range of client projects, utilizing languages such as React.js, Vue.js and Laravel).
- Collaborated closely with cross-functional teams to gather requirements, design system architectures, and ensure seamless integration with existing software systems
- Conducted comprehensive testing and debugging of software applications, effectively identifying and resolving issues to ensure optimal performance and user satisfaction.

Wordpress Developer at Nimbus Infosys, Kathmandu

Mar 2018 — Feb 2019

- As a **Junior PHP and WordPress Developer**, I assisted in building and maintaining websites by customizing themes, configuring plugins, and ensuring responsive layouts with **HTML, CSS, and PHP**. I handled basic database tasks, website setup on hosting servers, and regular updates for WordPress core and plugins.
- I worked with **WooCommerce** to create product pages, configure
